Career Objectives

Seeking a software development role where I can apply my expertise in coding, problem-solving, and innovative thinking to develop efficient and scalable solutions that drive business success.

Skills

- **Effective Communication:** Strong ability to convey ideas clearly and listen actively, ensuring smooth interactions with team members and clients.
- **Quick Learner:** Adaptable and eager to learn new technologies, tools, and methodologies, quickly applying knowledge to practical situations.
- **Problem-Solving:** Skilled in analyzing challenges and finding creative and effective solutions independently.
- **Continuous Learning:** Open-minded and always ready to embrace new opportunities for growth and improvement.
- **Positive Attitude:** Maintain an optimistic and proactive approach to tasks and challenges.
- **Typing Proficiency:** Fast and accurate typing speed of 65+ words per minute, ensuring efficient documentation and communication.
- **Good Listener:** Attentive listener, able to understand and address the needs and concerns of others effectively.

Education

IGNOU, Bachelor of Computer Application   Jan 2022 – Jan 2025

- **Gross Percentage: 70 Percent**
- **Coursework:** Computer Basics and PC Software, DBMS, Comparison of Learning Algorithms, System Analysis And Design , Problem Solving and analysis, java , c , c++ etc.

DUCAT NOIDA, JAVA FULL STACK   Feb 2023 – Jan 2024

Java Programming: Jan 2022 – Present

OOPs Concepts: Comprehensive understanding of Object-Oriented Programming principles in Java.

Collection Framework: Proficient in using Java's Collection Framework for efficient data management.

JDBC with Servlet: Practical experience in integrating Java Database Connectivity (JDBC) with Servlets to create dynamic web applications.

Spring Framework: Jan 2022 – Present

Spring IoC: Knowledge of Inversion of Control (IoC) in the Spring Framework for managing dependencies.

Spring MVC: Experienced in building robust web applications using the Model-View-Controller (MVC) design pattern in Spring.

Spring Boot: Expertise in using Spring Boot for rapid development and deployment of Java-based applications.

Web Development: Jan 2022 – Present

HTML and CSS: Skilled in creating and styling responsive web pages using HTML and CSS.

JavaScript and jQuery: Proficient in JavaScript and jQuery for creating dynamic and interactive user interfaces..

Bootstrap 5: Experienced in using Bootstrap 5 for responsive and mobile-first web design.

Full-Stack Development: Jan 2022 – Present

Node js and Express js: Knowledgeable in building server-side applications using
Node js and Express js.

React js: Proficient in JavaScript and jQuery for creating dynamic and interactive
user interfaces..

Databases: Jan 2022 – Present

MySQL: Experienced in using MySQL for relational database management.

MongoDB: Skilled in working with MongoDB for NoSQL database solutions.

Experience

Web Developer, Ruralrise Agro Management Pvt ltd   May 2024– Aug 2024
- Developed and launched the company website, fdaindia.org, using React.js, MySQL, and Java Spring Boot.
- Collaborated with cross-functional teams to ensure a seamless user experience and efficient backend integration.
- Contributed to the design, development, and deployment of key features that enhanced the company's online presence.

Projects

FDAINDIA
                                                           github.com/Rudraa2213/fdaindia.org
- Created and launched the website fdaindia.org using HTML, Css ,Java Spring Boot, React.js, and MySQL.

Synchronized Calendar

                                                           github.com/Rudraa2213/fdaindia.org

Operating System   2002
- Kali Linux,cli,windows

Additional Experience And Awards

HRMS Development:
- Successfully developed all components of the Human Resource Management System (HRMS) for fdaindia.org, streamlining employee management processes.
- Implemented advanced CRUD operations and ensured seamless user experience by integrating React.js with a robust backend built using Java Spring Boot.
- Designed responsive interfaces using Bootstrap and custom CSS to ensure accessibility across all devices.

UniboxxEducation:
- Developed a React.js-based web application for UniBoxxeducation, an online platform offering courses tailored for students.

Technologies

Languages: C++, C, Java, Python, HTML,CSS, SQL, JavaScript,MongoDB

Software: Spring Boot, Microsoft SQL Server, Interface, Hostinger web hosting
